

WHAT'S AT ISSUE

TRAFFIC and TRANSPORTATION ISSUES

Traffic and transportation issues do not obey municipal boundaries.

These issues are a quality of life concern for all of us.

CATHY'S RECOMMENDATIONS

- ✓ Where were we when Florham Park OK'd the glut of development that's about to make the intersection of Columbia and Park go from bad to *unbelievably* bad? Let's not let this happen again!
- ✓ We need to work more proactively with surrounding municipalities (as well as the county and the state) to develop responsible solutions to the traffic issues that connect us.
- ✓ We need to resolve our differences with Morristown on the **James Street sidewalk** project. Many opportunities here to negotiate mutually beneficial outcomes. Fresh perspective and ideas are needed.
